He shared the county vaccination rate which is 42% of one dose and 39% of Stanly County population is fully vaccinated, compared with the state rates of 58% one dose and 54% fully vaccinated. According to Mr. Jenkins, one question they've been receiving is can you receive your flu shot at the same time as your COVID-19 vaccine, which he states according to the CDC you can. He also reviewed the guidance for Booster vaccines for Moderna and Pfizer. Mr. Jenkins allowed time for questions and comments.

D.S.S. Updates

A. DSS Report of Services - Aug. 2021

Mrs. Dolly Clayton reviewed the DSS Report of Services stating that revenue is at 2% while expenses are at 14% through August, 2021. Also, she stated that the need for economic services continues to grow as the number for Medicaid services increased this month as well as for Food and Nutrition Services (FNS). Mrs. Clayton took a moment to recognize staff accomplishments sharing that the Adult Medicaid Income Maintenance III position was filled by an internal promotion, the vacant FNS position has been filled, but they are still facing challenges in filling the vacant Child Protective Services position, and are considering help by temp services as they have done in the past. Other issues include the continuing Review of Eligibility Determination Audit (REDA), the Work First Employment vacancy has been filled by an inside transfer and they continue interviews for the Child support Agent vacancy. In closing, Mrs. Clayton gave an update on the status of the LME/MCO realignment of Cardinal to Partners in Stanly County. She shared the Project Status Report from Partners and Status Report from Cardinal to Board members earlier by email, and stated that the realignment is 99% complete, but the realignment committee she is chair of, plans to hold one more meeting in November to address any problems. Mrs. Clayton states that they have found Partners to be very responsive to their challenging cases. In closing, Mrs. Clayton wanted to convey how much she appreciates the staff and their hard work. Foster care cases have increased along with CPS cases and the perspective staff are carrying more than recommended case loads and doing a great job under these challenging circumstances. Also, during comments, Nancy Smoak stated she wanted to commend Mrs. Clayton and her staff for working so hard and making the transition from Cardinal Health to Partner's as smooth as possible and correcting any errors immediately to keep them moving along. Chair Lowder agreed and thanked Mrs. Clayton and staff on behalf of the Board.
